The Applicant undertakes:

- To adhere to the overall schedule of the proficiency testing (PT) programme.
- To follow the instructions for sample handling.
- That the analysis will be performed by its own laboratory, or by a laboratory that normally performs such work based on a long-term contractual relationship.
- That the procedures used and results measured will not be falsified or consulted with other participants. If suspicion of unfair agreements between participants is proven, the PT organizer reserves the right to exclude these participants from the ongoing proficiency testing.
- To pay the full price of the bindingly ordered samples even if they are not collected.
- To pay the fee for participating in the PT, based on which the participant will be provided with the final report on the PT results and the relevant certificate.
- That they acknowledge the direct provision of the final report from the provider to the regulatory body upon request.
- That they acknowledge the possibility of submitting written complaints and appeals to the coordinator within 10 days from the date the contested fact occurred.
- To grant consent for the processing of the above-mentioned personal data for the purpose of participation in and evaluation of the proficiency testing.

The PT Provider states that:

- All information obtained in connection with the performance of the PT is considered confidential and protected against unauthorized use. The PT provider does not publish or disclose such information to third parties under any circumstances, except for legal requirements. This also applies to all contractual partners, external providers, and any external workers.
- Individual tests will only take place with a minimum number of 5 participants.
- Services of external providers will be used to implement the proficiency testing.
- The participant has the right to file complaints and appeals.
- Information on individual proficiency testing programmes and the procedure for filing complaints and appeals are available on the ALME website/Proficiency Testing.
